

MOM (Feb 18 to Feb 25)

We did not have a meet, this week, it was just a call. We confirmed with the client, regarding the database scheme.

We are about to discuss the schema and method for the tagging system.

We changed the schema to with all the interlinks between the tables, courses → modules, modules → sub skills, sub skills → skill topics.

We finalised the schema, and Still working on choices of how the client wants to access the CRUD operations.

we completed the code and are still yet to present it to the client.
